**Part 1 (30%) Description of Project and Scoping exercise**

Sum:

		☹☹	☹	☺	☺☺	☺☺☺
1	Is the project clearly described, and are all parts of the project described in sufficient detail?					✓
	Is it explained why the project is taking place and does the description include time scales?					✓
2	Is the location of the project described and explained?				✓	
	Are appropriate maps included, and do they show enough detail?				✓	
3	Does the report introduce the scoping method chosen (with enough explanation or references)?	✓				
	Is the scoping complete? Does the scoping outcome appear sensible?		✓			
	<i>no clear introduction of scoping/scoping method; no clear summary of its result</i>					
	Score					

**Part 3 (50%) Discussion of one chosen environmental parameter**

Sum:

		☹☹	☹	☺	☺☺	☺☺☺
	Is the parameter chosen for detailed discussion clearly identified <u>and explained?</u> <i>no</i>			✓		
4	Is it legislation and policy clearly identified?				✓	
	Is it legislation and policy clearly and in enough detail explained?				✓	
5	Are available baseline data described in enough detail and <b>discussed?</b>					✓
	Are problems with the baseline data or gaps in the data identified and <b>discussed?</b>					✓
6	Are prediction methods introduced and explained?				✓	
	Are the potential and weaknesses of the prediction methods <b>discussed?</b>			✓		
7	Are some mitigation measures identified and explained?			✓		
	Are the effectiveness and risks of those mitigation measures <b>discussed?</b>		✓			
all	Is all the material appropriately and correctly referenced?				✓	
	Score					

**Part 3 (20%) General description of EIA**

Sum:

		☹☹	☹	☺	☺☺	☺☺☺
8	Are enough of the relevant agencies identified?					
	Is the role of each agency described in sufficient detail?				✓	
9	Is it explained clearly how an Environmental Impact Assessment report is used?				✓	
all	Is all the material appropriately and correctly referenced?			✓		
	Is the report overall well written?					
	Score
